GLOBAL WILL REFUSE TO ACCEPT ANY DELIVERIES THAT DO NOT CONFORM TO THESE SPECIFICATIONS

DELIVERY DEADLINE AND POSTING CYCLE

Posters must be produced to the exact specification set out below and delivered 14 calendar days before the 'In-charge' date of the campaign. Campaigns are then posted on a 7 calendar day cycle (excluding Bank Holidays) which commences before the 'In-charge' date.

Please note: Global is not liable for compensation claims against any campaign where posters have been received after the delivery deadline. All posters received after the delivery deadline will not be posted until the next available posting cycle for this site type.

COPY APPROVAL

Before posting can commence, every National Rail campaign must be submitted to Global for copy approval. This is to ensure that the Codes of Practice outlined by our franchise partners are being upheld. See *Copy Approval on page 4*.

DISPLAY AREA

Due to paper-stretch when wet-posting, Global strongly suggests that advertisers pay particular attention to the Display Area. Background images and colours can be bled up to the Overall Size but

all important text and images must be positioned no less than 75mm from the right-hand edge and 50mm from the bottom edge. This will ensure that no important text or images are lost behind the framework of the hoarding.

MATERIALS

Posters or slips will not be accepted if printed on any photographic or vinyl materials. Global will also refuse to accept any posters that have been varnished, laminated or encapsulated as none of these processes are compatible with wet-posting.

SCREEN PRINTING: 105-120gsm Opacified UNCOATED MG blueback poster paper.

LITHO PRINTING: 105-120gsm Opacified COATED MG blueback poster paper.

INKS

All 12 Sheets on National Rail are wet-posted therefore only solvent inks can be used as UV and water-based inks are not compatible for wet-posting.

PRINTING

Prior to posting, Global will either hand- or machine-fold all posters. Variations in the compatibility of ink, paper and drying method can cause a reduction in the paper's durability and may cause the paper to crack or tear during folding or posting. Therefore each ink, paper and drying combination should be thoroughly tested for suitability before commencing with poster production. Please contact the Global Safety, Quality & Environment department on 020 7482 3000 for assistance with folding and posting trials.

Global will not accept responsibility for folding or posting failures that may occur due to ink, paper or drying incompatibilities.
